

INTELLiPH® pH CONTROLLER

The IntelliPH pH controller is the perfect companion for the IntelliChlor® Salt Chlorine Generator. It automatically dispenses muriatic acid to balance your pool's pH while the IntelliChlor generator creates pure chlorine from salt, right in the swimming pool. The IntelliPH controller eliminates fluctuations in pH level, protecting your pool equipment from corrosion caused when pH swings in and out of balance. The IntelliPH controller assures more effective sanitization, resulting in pool water that's easier on swimmer's eyes, hair and swimwear.

The IntelliPH controller is safer and more convenient for pool owners. When it's time to refill the IntelliPH controller's acid container, you simply remove the plastic cap from the gallon jug of muriatic acid, leaving the foil seal in place. Then invert the jug over the IntelliPH controller's container. An internal mechanism pierces the foil seal, allowing the acid to drain safely into the reservoir, avoiding potentially hazardous poolside splashes and spills.

If you're already using the IntelliChlor generator, then choose the perfect mate for safer, convenient pH control...the IntelliPH controller.

An Eco Select® Brand Product

The IntelliPH controller has earned the Eco Select brand, designating it as one of the most environmentally responsible equipment choices in the Pentair family.

INTELLIPH[®]

pH CONTROLLER

Pump style lid seals securely assuring safer operation

Acid addition rate adjusts with the touch of a button

Bolts securely to the equipment pad to prevent spillover

Balanced Pool Water and Simple pH Management

The IntelliPH controller makes managing your pool's pH a breeze. It works in perfect harmony with your IntelliChlor[®] Salt Chlorine Generator, providing a constant acid dose to maintain just the right pH level. Plus, the IntelliPH controller eliminates poolside spills.

Additional Features:

- Protects your pool equipment from corrosion when pH swings in and out of balance.
- Makes sanitizing more effective by eliminating fluctuations in pH level.
- Assures safer pH water conditions.
- Eliminates poolside acid spills.
- Powered by either the IntelliChlor Generator's Power Center or an EasyTouch[®] or IntelliTouch[®] Automation System with built-in IntelliChlor generator support for easy wiring and installation.
- Large 4 gallon reservoir.
- UL and cUL listed.
- One-year limited warranty on electronics and metering pump.
